

Is your office *making your staff sick?*

The truth about
workplace ergonomics

37%

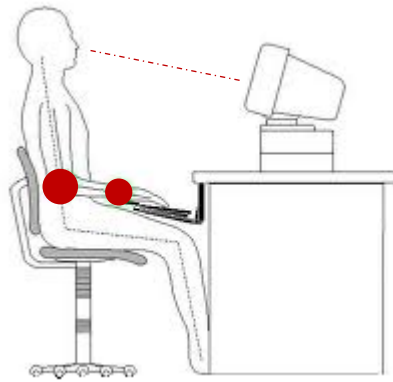

of all work related
injuries are caused
by poor ergonomic
conditions

95%

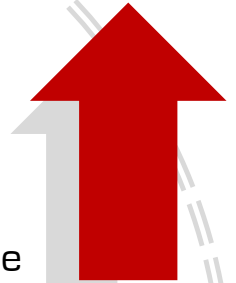

of an office
worker's day is
spent sitting in
front of a
computer

5,000

Is the average
amount of mouse
clicks an office
worker will make
in one day

office
ergonomics if
done right can
enhance worker
productivity by
11%
